Fire Department News

Reminder: Burn permits are required until October 15th.

Confirm...before you burn! Check Environment Canada's daily ventilation index for Central Vancouver Island to confirm if burning is permitted. Outdoor burning is restricted when the index is POOR or FAIR. The conditions must be GOOD on the day you burn as per DBID Bylaw No. 223. Be considerate of your neighbours when burning so you don't impact their daily routine or health. Burn materials hot, infrequently and ONLY when venting permits so the smoke goes straight up.

Venting index information available at: <http://www.env.gov.bc.ca/epd/epdpa/venting/venting.html> or call 1-888-281-2992.

- Draw a map of the home with all household members, marking two exits from each room and a path to the outside from each exit.
- Practice a home fire drill twice a year. Conduct one at night and one during the day with everyone in the home, and practice using different ways out.
- Teach children how to escape on their own in case adults can't help them.
- Make sure the number of the home is clearly marked and easy for the fire department to find.
- Close doors behind you as you leave – this may slow the spread of smoke, heat, and fire.
- Once you get outside, stay outside. Never go back inside a burning building.
